Attention!

Residency is ...

1. Residency is a form of postgraduate advanced medical education in clinical narrow specialties.
2. The purpose of the residency is to ensure the training of qualified, competitive personnel who meet modern requirements for the quality of specialist doctors for independent work.
3. A resident doctor who studies within the framework of the residency educational program and, if there are staff units, works in a medical organization under the supervision of a clinical mentor.
4. The base of the residency is a clinic for the organization of health education, a university hospital, medical institutions (inpatient hospitals, primary health care), a national clinical center, a research center or a research institute.

Rules for admission to the residency

What should an incoming resident know?

1. Admission to the residency of educational organizations is carried out on a competitive basis based on the results of entrance examinations.
2. Admission of foreigners to the residency is carried out on a fee basis in accordance with the Standard Rules for Admission to study in an educational organization.
3. Education documents issued by foreign organizations are recognized or nostrified in accordance with the procedure established by law in accordance with the Rules of Recognition and nostrification of education documents. approved by Order of the Ministry of Education and Science of the Republic of Kazakhstan dated 10.01.2008 No. 8 (registered in the Register of State Registration of Regulatory Legal Acts under No. 5135)
4. Persons who have an internship document (if necessary) and a document indicating the qualification of a "doctor" are accepted to the residency.
5. Persons who have scored 75 points or more, taking into account the conditions of the competition, are enrolled for training under the state educational order, grants of M&E, at the expense of medical organizations or their own funds on a competitive basis.
6. In the case of identical indicators of competitive points, persons receive a preferential right to enroll in residency on the basis of the decision of the competition commission on the analysis of the main and additional criteria available in the applicant's attestation file.

The total score of the entrance exam is calculated according to three indicators, (table), bonus points are considered if there are 75 points out of 100 points for three indicators.

The format of the entrance exam

1-ый показатель	2-ой показатель	3-ий показатель	Бонусы для конкурса – стаж работы	Бонусы для конкурса - знание английского языка
35%	35%	30%	Стаж работы (трудовая книжка)	Официальный сертификат
<p>GPA for 7 years of study</p> <p>The indicator of overall academic performance at the university for 7 years of study</p>	<p>IGA (independent examination) upon graduation from internship</p> <p>Internship training rate:</p> <ul style="list-style-type: none"> - WOP -Therapy -Surgery -Pediatrics -Obstetrics and gynecology 	<p>Test control of basic knowledge for postgraduate education 100 tests</p> <p>The general database of tests within the framework of clinical training of a doctor on the content of mastered disciplines (4-5-6-7 courses)</p> <p>Admission to the competition and calculation of the entrance exam – the presence of 65 points and above</p>	<p>The doctor's experience is considered in fact – the presence of a full 12 months in 1 year (excluding days and months, as well as excluding the period of maternity leave and child care)</p> <p>Bonuses for work experience as a doctor in practical healthcare</p> <p>-full 3 years -3 points</p>	<p>IELTS International English Language Tests System (Интернашнал Инглиш Лангудж Тестс Систем) - до уровня 5,5 - 3 бонусных балла; при 6,0 и более – 6 баллов</p> <p>Test of English as a Foreign Language Institutional Testing Programm (Тест ов Инглиш аз а Форин Лангудж Инстительюшнал Тестинг программ) (TOEFL) до 542 баллов – 3 бонусных балла; уровень 543 и более-6 баллов</p>

With diplomas
from other
countries

For applicants with diplomas from other countries (Russia, Belarus, Uzbekistan, etc.), the calculation of the entrance exam is carried out according to three indicators:

- - the first indicator - the assessment for the state final certification from the diploma is given to the 4-point ABO system at the highest level of "excellent", "good", "satisfactory" - 35%
- –the second indicator from the National Research Center of Astana - applicants must pass a similar test (as for the 1st stage of the IGA for Kazakhstani internship graduates) - 35%
- -the third indicator is an oral conversation with professors, associate professors in the specialty - 30%. Bonus points are identical (see table)
